PROFESSIONAL SUMMARY

I am a dedicated data analyst with a strong proficiency in SQL, Python, Excel, and Tableau. My analytical skills enable me to transform raw data into actionable insights, helping organizations make data-driven decisions with clarity and precision.

WORK EXPERIENCE

Data Entry Operator,

September 2019 – July 2021

La Verde textile – Damietta

I inputted and managed data, ensured data integrity and consistency across multiple databases. I mainly used Excel to clean, organize, and update data, which sharpened my attention to detail and problem-solving skills.

EDUCATION

Bachelor's Degree: Computer Science

Expected in July 2026

Damietta University - Damietta

COURSES

- Google Data Analyst Specialist, Digital Egypt Pioneers Initiative - DEPI · Internship

May 2024 – October 2024

I gained comprehensive training in data analysis, learning how to prepare, analyze, and visualize data using tools like Microsoft Excel, SQL, Python (Pandas, Matplotlib, Seaborn), Tableau, and R. I focused on practical skills, such as cleaning and organizing data, performing statistical analysis, and creating visualizations. The course included a capstone project where I applied these skills to real-world scenarios.
